The structural approach breaks this replacement cycle. Instead of doing cooperative learning lessons, teachers learn structures which make cooperative learning part of any lesson. When a new innovation comes along, teachers do not stop using the effective structures; rather they add structures to their repertoire so they make cooperative learning, multiple intelligences, and character development part of each lesson.

What are the different aspects of the structural approach

In the words of Menon and Patel: The structural approach is based on the belief that in the learning of a foreign language, mastery of structures is more important than the acquisition of vocabulary. This approach employs techniques of the direct method of teaching but the use of translation is not wholly discarded.

Co-op Co-op: The description is strange, however the idea is to present cooperative learning structures, rather than specific activities. Its described as a 10 step structure in which student teams create a project to educate the rest of the class. In the project each student has their own task and the whole task is finished when those components are assembled together. I am not sure how this is 10 steps.
